

Free Lotus Book Workshop at Lyn's Teachable Studio:

<https://lyn-belisle-studio.teachable.com/p/the-lotus-book/>

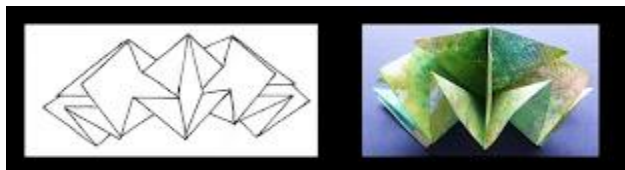

1. Make a horizontal, vertical and *one* diagonal fold on each of the 4 squares of paper.

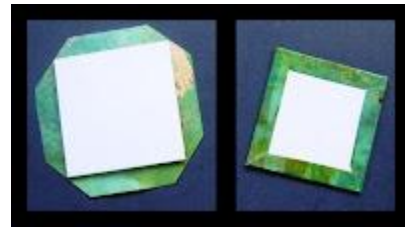

2. Push the diagonal folds in so that the paper folds into a smaller square.

3. With the folded corners in the same orientation, glue 2 squares together.

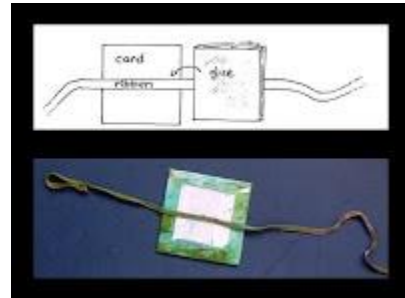

4. Continue with the remaining squares.

5. Cover each piece of thick card with the 7 cm square cover papers. Trim the corners.

6. Glue one cover onto the top of the folded papers.

7. Place the ribbon or fibre over the inside of the second cover, tape it down, then glue to the back of the folded pages.

This can be as long as you like, depending upon how many times you want to wrap it round the book!

NOTE – I like the ribbon on the diagonal, corner to corner – Lyn
